# CARS & COFFEE AND LUKOIL BRING TOGETHER CAR LOVERS IN SERBIA FOR THE SECOND TIME

Cars & Coffee was held in Belgrade for the second time. Organized by Autoslavia.com and Bud3.net, under the auspices of LUKOIL SRBIJA, this even brought together over eighty different cars that depict the current car culture.

The organizers had a difficult decision as the number of seats was limited this time. Belgrade's Cars & Coffee brought together supercars, sports cars, old timers and modern classics. The gathering began at the LUKOIL SRBIJA gas station on Bulevar oslobođenja street and continued to the Museum of Yugoslavia. The plateau in front of the museum is one of the most beautiful outdoor exhibitions and, last Sunday, got to host interesting specimens from the automotive industry, from cars from the 1920s to the latest models. The participants and visitors were given the opportunity to witness the evolution of the car, not only as a machine but also as an object of passion and love.

The concept of the Cars & Coffee event was born in America as a casual weekly gathering of enthusiasts over coffee, soon spreading and becoming a global movement. The goal of the Cars & Coffee rally has thus evolved into a gathering of like-minded individuals, around the world, and a place where a love for the car takes the most varied forms.
