INFORMATION FOR DRIVERS IN ONE PLACE THROUGH THE LUKOIL SERBIA MOBILE APPLICATION

LUKOIL SRBIJA has launched a mobile application that allows consumers to use services and products within its network of gas stations more easily and with greater convenience. It is enough for the user to download the LUKOIL SRBIJA application, register and his loyalty card will be digitized. By opening the virtual LUKOIL SRBIJA loyalty card, directly on your mobile phone, all information about gas stations, discounts, promotions and special offers will be quickly and easily available. The network of LUKOIL SRBIJA gas stations will be one click away from the user and will suggest our closest facility to the user's current location.

Consumers can use the app with every purchase and collect and spend points easier than ever, while the LUKOIL mobile app allows you to track your loyalty card balance as well as view transactions. Digitization and introduction of innovations to everyday operations are what the Company is committed to, all in order to save its customers time and provide a quality service.
