MAJOR SPRING-CLEANING CAMPAIGN ACTION AT THE "DOBANOVCI-JUG" PETROL STATION

A major spring-cleaning campaign was carried out at the "Dobanovci-Jug" gas station on the highway near Belgrade. Members of the staff working in the LUKOIL SERBIA headquarters helped the staff of one of the largest gas stations in its retail network to be ready to welcome consumers during the season.

Work was carried out on mowing around the curbs near the runway and on the edges of the green areas, cleaning waste in the parking lot and green areas adjacent to the gas station, washing windows in the restaurant, painting the curbs, as well as washing the runway and cleaning the fuel dispensers.

The plan is to continue this action at other LUKOIL SRBIJA gas stations.
