THE FIFTH LUKOIL FILLING STATION IN NIŠ

On 10th February 2017, 114th filling station was launched in an official opening ceremony by "LUKOIL SRBIJA" AD, being the fifth filling station in the City of Niš.

In the presence of the Mayor of Niš, Mr. Darko Bulatović and other representatives of the City Administration, the Director General of "LUKOIL SRBIJA" AD and the Head of the Balkan Regional Organization "LUKOIL" Igor Semeničev opened a new filling station.

"We are opening another modern facility that fully meets all European environmental standards, convenient for our customers, where they can fill in high quality motor fuels, buy different products and take a break in our cosy café. We are committed to providing our customers with branded products of a new generation and impeccable service. We are doing our best to be a reliable partner and offer new jobs. We therefore hope to prolong the fruitful cooperation with the City of Niš", said Mr. Semenčev, wishing good health, happiness and success in this year to all the present.

The filling station "Carina 2" at Jovana Ristića bb in Niš Municipality Palilula was constructed according to modern European standards, offering its customers a full range of motor fuels, including the fuels of a new generation, "ECTO Diesel", "Winter ECTO Diesel" and "ECTO plus" petrol. "ECTO" is the innovation fuel with improved exploitation and environmental properties, developed with the use of modern technologies. In addition to this, there is a variety of LUKOIL motor oils, car care and consumable products.

At the opening ceremony of the new facility, "LUKOIL SRBIJA" AD prepared special activities and surprises for its customers.
