FRIENDSHIP AND FAIR PLAY - THIS IS THE BMRO LUKOIL COLLECTIVE

The tradition of socializing and sports competition at the LUKOIL collective was successfully continued in Ohrid from May 27th to May 30th. One hundred and fifty participants from five countries in the region, in which LUKOIL group operates, gathered at the 5th BMRO LUKOIL games. Mr. Denis Ryupin, the manager of BMRO LUKOIL, welcomed all participants, wished them a fair competition and expressed satisfaction that this event, which connects colleagues from Northern Macedonia, Montenegro, Croatia, Bulgaria and Serbia in the best way, has been successfully organized and implemented even under such difficult conditions.

Like every other time, the score wasn't a priority, but that didn't mean that a desire to win was lacking. The interim cup for the best score across the overall 50-point spread and the medal won in all 15 sports disciplines, went to the team from LUKOIL SRBIJA. Second place, with 32 points, went to the team from LUKOIL Croatia, and two less points and third place went to the hosts from Northern Macedonia. Fourth place and 21 points went to the team from Bulgaria, while the fair team title was earned by the team from LUKOIL Montenegro. A special plaque for participation in the games was won by the guest team from Bulgaria's LUKOIL Neftochim, while the award for best audience was awarded to colleagues from Montenegro.

This beautiful event was officially closed by HR Director Ana Janković and the chairman of the BMRO LUKOIL games organizing committee, Dejan Janjić. Thanking all colleagues for their participation and commitment on the field, the hosts and the organizing committee for their efforts in designing and conducting these meetings under specific conditions, Ana Janković announced that the series of good socializing and positive connection between the LUKOIL staff from the region will continue in Serbia next year. By returning the games to the place where they were created, a new cycle will begin.
