DAYS OF BELGRADE TRADITIONALLY WITH THE SUPPORT OF LUKOIL SRBIJA

As part of the Cooperation Agreement concluded with the City of Belgrade, LUKOIL SRBIJA has been supporting this great Belgrade event for the seventh year in a row, held since 2002 in memory of two great dates in the history of this capital - April 16, 878, when the Slavic name of the city of Belgrade is mentioned for the first time, and April 19, 1867, when the keys to the city were symbolically handed over by the Turkish authorities, making Belgrade once again a Serbian city.

During the "Days of Belgrade", concerts entitled "Children's Belgrade Spring of 2022" and "Songs about Belgrade" were held on the Republic Square, during which visitors could hear a mix of children's songs dedicated to Belgrade with the participation of famous singers and actors. In the ceremonial hall of the Old Palace a concert of "St. George's Strings" was held. The visitors could walk through the historical heritage of the capital, visit photo exhibitions, and download the "Historian" project mobile application, which uses artificial intelligence and augmented reality. The Institute for the Protection of Cultural Monuments of the City of Belgrade organized a workshop for children aged six to 10 on the topic "Get to know Belgrade to love it more."
