LUKOIL ADDS KILOMETERS TO THE BEAUTY OF OLDTIMERS

During the first weekend in September, at the LUKOIL Avalski put gas station in Belgrade, a kind of exhibition of oldtimers of historical value was held. It is about the traditional King Tomislav Rally memorial organized by the Oltjamer Club Belgrade, and this year over 50 extraordinary examples started the promotional drive from Avalski put through the cities of Serbia.

For 15 years now, since 2007, LUKOIL SRBIJA has been cooperating with associations and lovers of oldtimers. Various gatherings have become a tradition. The goal of this collaboration is for oldtimers to cruise our roads, as much as possible, and thus add the attractive element of a museum on wheels to everyday life, so that these beauties, which among other things promote the technical culture of our country, do not remain locked up in garages.

Thanks to this cooperation, in addition to Belgrade, exhibitions were held in Mladenovac, Oplenac and Aranđelovac.
