LUKOIL GRANTED FURNITURE FOR A BELGRADE SPORTS HIGH SCHOOL

LUKOIL SRBIJA provided assistance to the Sports High School in Belgrade by equipping various rooms in this institution. High-quality office furniture donated by the Company to the Sports High School found its use and replaced over 150 worn-out pieces from the library, meeting room, offices and administrative rooms.

Within the program of socially responsible activities carried out by LUKOIL SRBIJA during the jubilee year, this donation also found a prominent place. According to the principal of the Sports High School, Ivanka Kovačević, this kind of support is of great use, both functionally and aesthetically, as it has refined a space in which, students and staff, spend a great amount of time. Sports High School for 21 years has been the only state high school in Serbia which pays special attention to educating young athletes and supporting a healthy lifestyle.
