LUKOIL SERBIA EQUIPPED NEW PLAYGROUND IN CREPAJA

The children's playground in the park in the center of Crepaja, renovated with the financial support of LUKOIL SERBIA, was officially handed over for use in the presence of company representatives and local authorities. Thanks to the donation, a complex multifunctional structure with swings, seesaws, slides, a climbing wall, a wooden bridge, and small houses was installed. LUKOIL SERBIA has been operating in this municipality for decades, and the donation is dedicated to the 250th anniversary of the existence of Crepaja.

This project was implemented as part of LUKOIL SRBIJA socially responsible program aimed at supporting the proper development of the youngest, enriching the content and improving living conditions in small towns and villages.
