# CONTINUOUS SUPPORT FOR YOUTH WITH DEVELOPMENTAL DISABILITIES

As part of this year's cooperation between "LUKOIL SERBIA" and the humanitarian organization "Children's Heart", a new project has been completed. On the agricultural property in Vrčin that was given to this organization for the purpose of training young people with disabilities, the installation of tool and equipment sheds used on the property in the daily activities of the users was completed.

For five years, LUKOIL SRBIJA has been supporting the implementation of various educational programs in the field of training people with disabilities, which are implemented by "Dečje srce" in accordance with the Law on Professional Rehabilitation and Employment of Persons with Disabilities of the Republic of Serbia. In this way, over the past years, hundreds of children and young people with developmental disabilities, as well as their parents, have gone through the programs "Life Skills School", "Parenting School" and work center "Sounds of the Heart".

Thanks to this continuous support, young people with developmental disabilities have the opportunity to gain employment, which will make them useful to themselves, their families, and society.
